

Monessen Direct Vent Insert Systems

A MORE EFFICIENT WAY TO HEAT YOUR HOME

Easily turn your old, inefficient masonry fireplace into a cozy, cost-effective heat source with Direct Vent Insert Systems from Monessen. Featuring beautiful style, realistic flames and powerful heat output, these inserts provide everything you want in a fireplace while helping to lower fuel costs. And, with plenty of trim and surround options, it's easy to create the perfect look for your home.

Reveal ILDV40 with optional Black Texture Beveled Surround with hood shown on cover

REVEAL DIRECT VENT INSERT SYSTEM

ILDV20, ILDV30 & ILDV40

Friends and family can enjoy the dancing flames through the large viewing area while staying warm, thanks to 39,000 BTUs of heating power. Standard features include Cottage Clay firebrick, a variable thermostat controlled forced air blower to help the fireplace operate at its most efficient, and a Natural Flame™ burner with a strikingly realistic ceramic fiber log set. Two styles and colors of designer facings give you plenty of options as you create the perfect look for your home.

Standard Features

- Clean face design
- Natural Flame™ burner with ceramic fiber log set
- 3" intake and 3" exhaust vent pipe connectors for chimney flex liners
- Thermostat blower (160 cfm) standard
- 18" flex line with On/Off shut-off valve
- ON/OFF shut-off valve with easy access panel conveniently located on side of the firebox

ACCENT DIRECT VENT INSERT SYSTEM

IDV380

The Accent Direct Vent Insert System features standard Black filigree trim and Cottage Clay firebrick to create a stylish, custom look. The larger, 382-square inch viewing area provides ambience that will light up the room. And, with heating power of up to 30,500 BTUs, you'll be sure to stay warm and comfortable. To make this fireplace insert truly your own, choose from a variety of optional accessories for the perfect look.

Standard Features

- Seven piece ceramic fiber logs featuring a patented Natural Flame™ burner with random dancing flames and large ember bed
- Millivolt with on/off switch and variable flame height control in natural gas or propane gas
- Black filigree panels
- Natural or propane field convertible
- Flexible connector with On/Off shut off valve included
- Consumer friendly deluxe control panel with on/off switch
- Thermostat controlled blower
